September 29, 2017

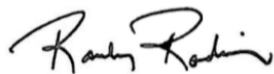

Dear Caledonia Families:

I am writing to inform you of a situation that occurred late last night. The district was informed by the Kent County Sheriff's department that they were investigating a threatening communication made by one of our students. That communication referenced a school shooting. After their investigation, the Sheriff's department made the determination that the threat was not credible.

I want to assure you that the administrative team, our school resource officer, and local law enforcement are continuing to investigate this incident and we will do our very best to ensure that Caledonia High School is safe. We know exactly where the threatening communication came from and we will deal with the situation accordingly.

Both law enforcement and school officials urge our parents to continue to talk with your children about appropriate and responsible use of electronic communications and social media. The consequences can be severe for misuse of personal technology devices. We also appreciate our community always remaining alert to these situations and contacting law enforcement.

Respectfully,

Randy Rodriguez
Superintendent
