Committee Questions and Comments:

- More specific information regarding configurations of other districts.
 - examples may include Hudsonville, Zeeland, Rockford
- Address Swimming Pool
- Growth Projection Data
- Schools of Choice Information
- Capacity at current elementary and middle schools
- Student to teacher ratios and class size

- Survey- how are we going to distribute it?
- We need to communicate our value of the community
- More information needed on all the options
- How accurate are the growth projections?
 - Darrell: After reviewing past growth projections they appear to be very accurate. This research was based on projections from the 2000 and 2007 projections. These projections are done by Fred Igotovitch
