# TRANSPORTATION INFORMATION

## Pick up/Drop off Location

Your child's safety is our greatest concern. For the safety of all children we have a "One Drop Location" policy. This means parents/guardians will identify a single location where you want your child dropped off at everyday. This policy is in effect for all students at all grade levels. **If students are dropped off or picked up at daycare, that address must be listed below.** If you do not plan on using transportation as this time, please indicate below.

## Health Concerns

We are also concerned about any health issues your child may have. It is very helpful to know these in advance. This helps the transportation department and the bus driver to be prepared for your child.

With your help, we will be able to make the transition from home to school as smooth as possible for your child. Please fill out the form below and return it with the rest of your Kindergarten Registration Packet. If you have any questions, please call us at 891-0224.

Thank you,

## ELEMENTARY ACCEPTABLE USE POLICY AND PHOTO PERMISSION FORM

Welcome to the world of elementary technology. We are excited to continue learning with Internet access in all buildings. As technology use grows, so does the need for responsible use of all technology. We will be teaching responsible use of both the equipment and the Internet to your child this year and need your support. It is our intention that all Internet use at the elementary level be provided with strict guidelines for use and constant supervision.

### Technology Rights and Responsibilities

Students will:

- Use all technology equipment properly and obey computer rules.
- Keep their sign-in name and passwords private.
- Save their work to the network or flash drive.
- Use the Internet with teacher supervision in both the classroom and lab for educational purposes.
- Use only bookmarked and teacher researched websites unless receiving special permission.
- Keep all personal information such as their name, address or location to themselves.
- Do selected searches with pre-approved search engines only.

*In accordance with the Children's Internet Protection Act (CPIA), Caledonia Community Schools Wide Area Network Administrator has made every attempt to restrict/block access by minors to inappropriate matter on the Internet and World Wide Web and to materials harmful to minors, wherever possible. (Board Policy #7540)*

# Caledonia Community Schools Annual Elementary Field Trip Permission Form

## **Overview:**

Throughout the year students attend a variety of field trips. These trips are planned and selected to be a natural extension of the learning that is occurring in their classrooms. Costs for our field trips vary by trip, but a large portion of these costs are covered by funds raised by our PTO. Some trips may require additional funds. It is our hope that all students will be able to attend all trips, so financial assistance is available for students (please let your child's teacher know if this is necessary).

## **Volunteers/Chaperones:**

Some of our field trips require parent volunteers/chaperones. Parents who are interested in volunteering/chaperoning must have read and signed the Volunteer Guidelines Handbook and have a background check completed by the school at least two weeks prior to the trip. Volunteers/Chaperones will not be permitted to attend a trip unless a background check is on file. Background checks are valid for the current school year and are good across the district. The handbook and forms can be found on the district website and are also available in the main office.

## **Parent/Guardian Permission:**

All students must have written permission on file for them to attend a field trip. Please sign and return this form to your child's teacher. This signature will permit your child to attend all field trips during the school year. Details of each trip will be distributed by your child's teacher prior to the trip.

# PARENT & ATHLETE CONCUSSION INFORMATION SHEET

## WHAT IS A CONCUSSION?

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow, or jolt to the head or body that causes the head and brain to move quickly back and forth. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious.

## WHAT ARE THE SIGNS AND SYMPTOMS OF CONCUSSION?

Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury.

If an athlete reports one or more symptoms of concussion after a bump, blow, or jolt to the head or body, s/he should be kept out of play the day of the injury. The athlete should only return to play with permission from a health care professional experienced in evaluating for concussion.

## SYMPTOMS REPORTED BY ATHLETE:

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to light
- Sensitivity to noise
- Feeling sluggish, hazy, foggy, or groggy
- Concentration or memory problems
- Confusion
- Just not "feeling right" or is "feeling down"

## DID YOU KNOW?

- Most concussions occur without loss of consciousness.
- Athletes who have, at any point in their lives, had a concussion have an increased risk for another concussion.
- Young children and teens are more likely to get a concussion and take longer to recover than adults.

## SIGNS OBSERVED BY COACHING STAFF:

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes
- Can't recall events prior to hit or fall
- Can't recall events after hit or fall

▶ **"IT'S BETTER TO MISS ONE GAME THAN THE WHOLE SEASON"**

## CONCUSSION DANGER SIGNS

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body s/he exhibits any of the following danger signs:

- One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that gets worse
- Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Cannot recognize people or places
- Becomes increasingly confused, restless, or agitated
- Has unusual behavior
- Loses consciousness (even a brief loss of consciousness should be taken seriously)

## WHAT SHOULD YOU DO IF YOU THINK YOUR ATHLETE HAS A CONCUSSION?

1. If you suspect that an athlete has a concussion, remove the athlete from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says s/he is symptom-free and it's OK to return to play.
2. Rest is key to helping an athlete recover from a concussion. Exercising or activities that involve a lot of concentration, such as studying, working on the computer, and playing video games, may cause concussion symptoms to reappear or get worse. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional.
3. Remember: Concussions affect people differently. While most athletes with a concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer.

## WHY SHOULD AN ATHLETE REPORT THEIR SYMPTOMS?

If an athlete has a concussion, his/her brain needs time to heal. While an athlete's brain is still healing, s/he is much more likely to have another concussion. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in young athletes can result in brain swelling or permanent damage to their brain. They can even be fatal.
