

Aug 19, 2021

Dear Caledonia Community Schools community,

Yesterday, the Allegan County Health Department put out an [order](#) that may impact one of our elementary buildings. We wanted to let families know that we are reviewing the information with our legal counsel and local health departments to make a determination. As such, we will be delaying the welcome back letter that was slated to go out this morning and will update families tomorrow with more information.

Sincerely,

Dr. Dedrick Martin  
Superintendent
