Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2018-19 educational progress for the Kettle Lake Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school’s report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact the Kettle Lake Principal, Mr. Sean M. McLaughlin, for assistance.

The AER is available for you to review electronically by visiting the following web site Kettle Lake Elementary MISchool Data Report, or you may review a copy in the main office at Kettle Lake Elementary.

For the 2018-19 school year, schools were identified using new definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has three or more underperforming student subgroups. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no label is given.

Kettle Lake Elementary School has not been identified by the State of Michigan as having any of these labels.

Kettle Lake Elementary developed a building-wide systemic process to positively impact student achievement. Trends in student achievement data indicate that we have key challenges within our four core academic areas. Our staff has worked to address these challenges through the School Improvement Process. Our goal continues to be to integrate a Multi-Tiered System of Support (MTSS) across all four core academic areas in which 80% of students are achieving at desired levels and that the remaining 20% are receiving necessary supports. In addition, we have implemented Positive Behavior Supports and Interventions (PBIS) to support a tiered system of behavioral interventions for our students. The implementation and evaluation of our MTSS structure will drive our professional development and School Improvement goals over the next three to five years. We feel strongly that our work in creating a Multi-Tiered System of Supports (MTSS) provides a layered approach to teaching and learning by providing (1) high quality instruction for all students; (2) interventions in key skill areas for some students; and (3) intensive intervention and support for a few students.
State law requires that we also report additional information.
